1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

Our college promotes co-education. There are no serious trends like

ragging or teasing. Essays and group discussion on the topic, "Role of women in India" are a part of syllabus. Humanities and languages tend to be associated with femininity. Home Economics subject is taught to only girls. For other subjects such as Commerce, statistic, computer, learners are treated equally in our college. It is often believed that boys are better at physical exercise and gymnasium than girls and girls are better at "Home" activities including sewing, cooking and dish decoration. Some topics like "Women- Men equality," "Savitribai Fule and Tarabai Shinde", "Doicha Padar Ala Khandavari" poem entitled, "To mother" are a part of syllabus of B.A.I and B.A.II and through the syllabus the college inculcates human values, and sensitizes gender issues among the students. In order to promote the issues of gender equality the college celebrated Savitribai Fule's birthday as 'Balika Day' and encouraged the girls students for women empowerment. Besides.in collaboration with AIMA the institution organized a training camp for girls students to empower them. For promotion of gender equality women development based programmes were conducted.

7.1.3 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

The term solid waste means Material such as household garbage, food waste, yard waste, like leaf from trees, waste papers, kitchen waste from Home Eco Dep. etc. Solid wastes are waste that are not liquid or gaseous composting of waste is an aerobic (in the presence of air) method of decomposing solid wastes. The process involves decomposition of organic waste into humus known as compost which is a good fertilizer for plants.

A major issue facing modern society is waste management. A growing emphasis has been placed on the five R's, Reduce, Reuse, Recycle, Recover and Reallocation. Composting provides a means of accomplishing all five of the R's. through composting the amount of garbage sent to the landfill is reduced, the organic matter is reused rather than dumped, and it is recycled into a useful soil amendment. Many find that composting is as much of an art as a science.

The latest gadgets and electronic gizmos always create a buzz on college campuses, There is little awareness about waste; so to aware the students, society and college..., A campaign was taken and we discuss challenges and need of e-waste management among college students from different backgrounds.
